PROFILE

Have been doing freelancing for almost 1 year and have an expert grasp on production based projects. Due to rapid IT advancement all over the world, I tend to learn web dev with ai.

WORK EXPERIENCE

BurgerB.pk   JUNE 2024

Front end with html css and js.
- Revamped the entire website with a new look and feel, ensuring full responsiveness and custom-designed pages.
- Utilized HTML and CSS for design and ES6 Vanilla JavaScript for functionality.
- Employed media queries for responsiveness across various devices, adding minimalistic details with parallax effects and footer animations.
- Custom domain and hosted on GitHub.
- http://www.burgerb.pk

HadiTravels.com   April - May 2024

Frontend with html css and js
- Collaborated on a group project for a travel agency client, handling the front-end development.
- Used HTML and CSS for design, and JavaScript for logic, incorporating Swiper.js for sliders and custom loaders.
- Achieved a unique look with a promising color combination, exceeding client expectations.
- https://www.haditravels.com/

Chaudry group   Feb - March 2024

Frontend with html css and js
- Developed the entire website for a property agency using HTML, custom CSS, and JavaScript for fast and elegant results.
- Hosted the static website on GitHub Pages.
- https://chaudrygroup.github.io/

PERSONAL PROJECTS

Cafe 12-Oclock   January 2024

Frontend with html css and js
- Created the website as a learning project using HTML, custom CSS, and JavaScript for efficient results.
- Integrated parallax effects and modern design elements.
- Hosted on GitHub Pages.
